MS Grade 7 Student Book and Supplies for Purchase 2025-2026

Transitioning to Middle School

The transition to 7th grade involves greater independence and responsibilities. Students will have lockers with a personal password. Students will need to manage their own materials in these lockers throughout the day. Labeling all materials and books and using a daily planner to track subject expectations are a few self-management strategies we encourage to help with this transition.

Technology in Middle School

In the 7th grade program, we encourage ownership and responsibility with technology. We are recommending students bring a laptop as one of the school supplies. The brand isn't important; we simply recommend it have a physical keyboard. Students will be taught IT skills in their various subjects that will support their learning throughout middle school.

Middle school is a no-phone zone: phones are not allowed during school hours.

General Supplies

- | | |
|--|---|
| <input type="checkbox"/> Planner / Agenda (to record daily objectives or homework) | <input type="checkbox"/> A packet of Coloured Pencils |
